## START INQUIRY IN MYSTERY STABBING OF RANCH HAND

**Victim In Hospital In Serious  
Condition, While Police  
Seek Assailant**

Juan Carrillo, known as the "cuckoo" at the Ross ranch where he is employed, lies in the Glendale Sanitarium and Hospital in a precarious condition as the result of being stabbed and slashed by an unknown assailant last Saturday night.

The victim was picked up by the police at the intersection of Glendale avenue and Verdugo road and it was evident that he was on his way to the ranch with his pay, or a portion of it, as \$15 was found on his person. His right arm was badly gashed and he suffered terribly from the loss of blood.

**Mexican General Aids**  
Espidion Ramirez, who boasts of being a Mexican general, and Jesus Valenzuela, other employees of the ranch, aided detectives George Delgado and George Herda and Sergeant Quia Balhazer in an investigation which led to the arrest of Carrillo, employed by the city and county on Verdugo wash flood control work.

Garcia established an alibi, his wife declaring he had been at home Saturday evening, but Carrillo said he was sure Garcia was the assailant. Further investigation probably will result in his release.

**Even Takes Cold Cream**  
A. O. Merriek of 521 South Louise street reported to the police that his home was broken into over the weekend and that a typewriter, electric percolator, gold necklace, suit of clothes, traveling bag, toilet articles and other property taken. It was very evident that the thief is discerning individual as a jar of cold cream was taken from a dresser.

**Given To Caretakers**  
Berge Davidson of Fresno was taken into custody at San Fernando road and Colorado boulevard yesterday afternoon and upon investigation turned over to Pasadena parties who are caring for him.

**Pay Celebration**  
Earl Inman, Jesse Wright and Vernon Holt, all residents of West Los Feliz road, paid \$15 fines this morning for a belated celebration of New Year's.

**Many Traffic Cases**  
Police Judge P. H. Lowe was back on the bench today and heard a score of traffic cases. He is still quite weak from severe illness.

**Membership Meeting  
for C. of C. Will  
Be Tuesday Night**  
Tomorrow will be a big day for the Chamber of Commerce.

At noon the directors will dine in the banquet room back of headquarters with members of the civic and advertising committees present. Then all will go into session for working out plans to be presented to the membership meeting tomorrow night.

Every paid up member of the Chamber who takes a real interest in the work is expected to be present at 7:30 p. m. and assist in formulating a program for the year after hearing Secretary James M. Rhoades' report on 1921 activities.

A stockholders' meeting of the Citizens' Building corporation also will be held.

**Mr. and Mrs. Hewlett  
Are Expecting Visitors**  
Mr. and Mrs. Frank J. Hewlett of 312 East Doran street are expecting the arrival this evening of their nephew and niece, Mr. and Mrs. Henry Jones and children, Elizabeth and Francis, from Salt Lake City, who will stop en route at San Francisco. Mr. Jones is a civil engineer and has been employed by the Salt Lake City corporation for the past fifteen years and is now enjoying his vacation.

**Auto Trimmed of Top  
By Untrimmed Branch**  
H. R. Sands of 345 West Burchett street lost the top of his motorcar yesterday afternoon when it brushed under a pepper tree overhanging Central avenue in the 500 block north. Since the city has discontinued its forestry work similar occurrences have been reported.

**ARTHUR GRIFFITH FORMS  
IRISH GOVERNMENT AND  
MAKES SELF PRESIDENT**

DUBLIN, Jan. 9.—Arthur Griffith, founder of the Sinn Fein, this afternoon formed a government for Southern Ireland, he himself taking the office of president.

A motion to re-elect Eamonn de Valera president of the Irish republic failed earlier in Dail Eireann this afternoon. The vote was 60 against the motion and 58 in favor of it. The opposition won by a majority of two votes.

## Today's World News In Brief (By International News Service to Glendale Evening News)

**MILLION TO BE SPENT ON HOSPITAL FOR VETERANS**  
WASHINGTON, Jan. 9.—President Harding today signed an executive order setting aside 250 acres of land of the Jefferson Barracks, St. Louis, Mo., for the erection of a permanent hospital for veterans of the world war. The hospital will cost approximately a million dollars and will be built from funds appropriated by congress.

**SAVES SOME OF DIAMONDS BY HIDING THEM IN MOUTH**  
OMAHA, Neb., Jan. 9.—Robbers held up William B. McCabe, his wife and another in the garage at the McCabe home today and got away with \$2500 in diamonds and cash. The bandits were waiting in the garage when the McCabes returned from a motor trip. Mrs. McCabe saved \$1000 worth of diamonds by hiding them in her mouth.

**J. OGDEN ARMOUR IS REFUSED PLACE ON TWO BOARDS**  
WASHINGTON, Jan. 9.—J. Ogden Armour, multi-millionaire Chicago packer, was denied permission by the interstate commerce commission today to hold the position of director in both the Illinois Central and the Chicago, Milwaukee & St. Paul railroads. Armour will be allowed to retain his directorship in either road he chooses, but not in both of them.

**SENATOR M'CUMBER MADE FINANCE COMMITTEE'S HEAD**  
WASHINGTON, Jan. 9.—Senator McCumber, republican, of North Dakota, was today formally named chairman of the senate finance committee to succeed the late Senator Penrose, by the committee on committees. Senator Fredinghuysen, republican, of New Jersey, was chosen to fill the vacancy created on the committee by the moving up of McCumber to the chairmanship.

**SECOND TRIAL OF ARBUCKLE STARTS ON WEDNESDAY**  
SAN FRANCISCO, Jan. 9.—Roscoe ("Fatty") Arbuckle will go on trial again for manslaughter as a result of the death of Virginia Rappe on Wednesday. His case was called in superior court today and he entered a plea of not guilty to the grand jury indictment charging him with responsibility for Miss Rappe's death. District Attorney Brady and Gavin McNab, counsel for the film comedian, each asked that the new trial proceed at the earliest possible date and Judge Louderback announced a case now on trial would be completed in time for the case to open Wednesday.

**GEORGE WHARTON PEPPER SUCCEEDS BOIES PENROSE**  
PHILADELPHIA, Jan. 9.—George Wharton Pepper, noted constitutional lawyer of this city, was today appointed by Governor Sprout to the United States senate as successor to the late Senator Boies Penrose. Strong efforts were made at the last minute by eastern political leaders to secure the appointment of Louis S. Sailer, state highway commissioner. The new senator is 55 years old and extremely popular in eastern Pennsylvania. He attained national prominence as defense counsel for organized baseball against the defunct Federal league.

**EXPECT BURCH CASE REACH JURY BY NEXT SATURDAY**  
LOS ANGELES, Jan. 9.—With the defense expecting a disagreement and the prosecution a verdict of conviction, the case of Arthur C. Burch, on trial for the murder of J. Belton Kennedy, will go to the jury either Friday or Saturday, attorneys for both sides predicted today. Final arguments to the jury, it was stated, will begin Wednesday, at the completion of the prosecution's rebuttal. Defense attorneys contend that a verdict of acquittal by reason of insanity is justified by the evidence and they expect a disagreement of the jury with the majority in favor of acquittal. As the case now stands they figure eight jurors are for acquittal, two doubtful and two for conviction. On the other hand, the prosecution believes that, as the case now stands, eleven jurors for conviction and one for acquittal.

**AMBASSADOR HARVEY INJURED IN AUTOMOBILE CRASH**  
CANNES, France, Jan. 9.—George Harvey, American ambassador to England and observer for the United States at the supreme council meeting, was injured in an automobile collision today. The attending physicians said that they hoped that Mr. Harvey's injuries were not serious but they ordered him to remain quietly in bed during the balance of the day. The American ambassador, accompanied by H. Wickham Steed, editor of the London Times, was on his way to the golf links when another motor car, coming up swiftly from behind, struck his automobile on the side. Both Mr. Harvey and Mr. Steed were thrown to the pavement. Spectators rushing up found Mr. Harvey unconscious. He was taken immediately to the Carlton hotel where three physicians, including the personal doctor to Premier Briand of France, were summoned. They found Mr. Harvey suffering from injuries about the head. A careful examination was made, after which they ordered the patient to forego all activities for the time being. Mr. Harvey regained consciousness shortly after the accident. He was badly shaken up and was suffering from the shock when put to bed.

**DE VALERA REAFFIRMS RESIGNATION OF PRESIDENCY**  
DUBLIN, Jan. 9.—Eamonn DeValera today reaffirmed his resignation as president of the Irish republic when Dail Eireann met again at University College. DeValera said that his resignation carried with it the resignation of the Sinn Fein (or Dail) cabinet. As soon as DeValera had reaffirmed his resignation, a deputy proposed his re-election as president. Deputy O'Malley opposed. Michael Collins gained the floor and warned the Dail that if it "continued in present fashion it would become the laughing stock of the world." Collins announced that a committee soon would meet a British committee to take over all administrative affairs. DeValera was shaken by emotion and his resignation speech was delivered with a broken, halting voice. Collins suggested that committees be appointed by the two factions to attempt to arrange a compromise. "None of us wants to see Mr. DeValera resign," said Collins. However, DeValera rejected the offer. Arthur Griffith, founder of the Sinn Fein, addressed the house, saying that the ratification vote Saturday night represented the will of the Irish people. "Nothing is going to prevent the intentions conveyed by that vote from being carried out," said Griffith.

## NEW PLANT CREATIONS ARE ANNOUNCED TODAY BY LUTHER BURBANK

SANTA ROSA, Cal., Jan. 9.—A new white, hullless oat that threshes out like wheat and weighs approximately sixty pounds to the bushel instead of forty-five pounds, is one of the chief new horticultural productions of Luther Burbank, "plant wizard," announced today.

Other new creations perfected by Burbank and announced today include:

- A mammoth crimson-flowering artichoke, the globes of which are as beautiful as roses, but ten times as large.
- A new orange sunberry having the exact flavor of the eastern blueberry and huckleberry.
- A new Brazilian tomato-like fruit.
- A Peruvian winter grass which produces an enormous amount of feed despite the heaviest frosts throughout the winter, affording a valuable forage for poultry, horses, sheep, cattle and goats.
- A new sweet corn surpassing previous creations in sweetness, productivity and early maturity.
- A new yellow flowering hyacinthus.
- A new prickly poppy and a wonderful new amaranthus named "Molten Fire" because of its gorgeous coloring effects.

## MORE THAN 30 PER CENT INCREASE IN GLENDALE'S POPULATION FOR 1921, IS ESTIMATE OF OFFICIAL

**J. F. McIntyre, Commercial Agent of Public  
Service Department, Says City Grew by 5,665  
Persons; May Reach 50,000 by Jan. 1, 1925**

Glendale, known as the fastest growing city in America of its class, had an increase in population during 1921 of 5,665, according to an estimate made this morning by J. F. McIntyre, commercial agent of the public service department, who uses the installation of light and water meters as a basis for his figures. This is, better than 30 per cent in a year's time!

The following table indicates the growth in meters during the last month and the last year:

	Water	Light
Total, November 30	6054	6910
Increase in December	106	180
Total, December 31, 1921	6160	7090
Total, December 31, 1920	4818	5350
Gain in Year 1921	1342	1740

Approximately 1500 families are represented by these figures, according to Mr. McIntyre, and using the increase in light meters as representing 3.25 average of new consumers, he obtains the population total. He declares that Glendale can safely boast of more than 23,000 residents in the district served by the public service department.

There is no slackening in the demand for meter installations, according to records on file at the city hall, which is pleasing to the promoters of prosperity. At the present rate of increase Glendale will boast of no less than 50,000 residents by January 1, 1925.

## REGISTRARS CHOSEN TO SIGN VOTERS IN THIS CITY

## TOTAL OF \$22,000 IS PLEDGED FOR CHURCH'S WORK

**Have You Registered? Here  
Are Names and Addresses  
of Deputies Appointed**

The following residents of this city were appointed the first of the year as deputy registrars of voters in Glendale:

Mrs. Myrtle Buckman, 1141 Winchester avenue; Mrs. Grace Holman, 532 West California; Olive M. Bradley, 410 East Broadway; Frederick MacDougall, 453 West Colorado street; Mary B. Lindrum, 1119 East Broadway; Minnette Sherman, 216 Ethel street; Mrs. Opal O. Greenwalt, 408 Oak street; Lewis W. Ball, 353 West Elk avenue; Isabel A. Tisdale, 336 West Acacia avenue; Helen M. Hazard, 125 West Maple street; Sarah M. Ryan, 332 West Acacia avenue.

Registration is now under way for the August primary election, which precedes the general state election, November 7, when voters will be cast for candidates to fill state and county offices, besides one United States senator and several congressmen.

D. B. Lyons, registrar of voters, has announced a list of "dates to be remembered" in connection with the coming elections. May 31 is the last day to be naturalized and to take up residence in this county; June 15, last day two weeks elections may file petitions indicating intention of forming new political party.

**Dates for Petitions**  
Between June 20 and August 29, the primary election date, are numerous "final" dates for the filing of election petitions, affidavits and certifications in connection with proposed initiatory measures.

Following the primary in August comes the canvass of votes and preparations for the general election November 7, registration for which closes October 7. The next day the secretary of state verifies names of candidates and initiatory measures.

The official canvass of votes cast at the general election commences November 13. The last day to file statements of expenditures made by candidates must be made November 22. December 17 is given as the date on which the secretary of state must complete a statement of the votes cast at the election.

## Building Funds Will Be Available Quickly

Cash for the building program of the grammar school system will be available in about two weeks according to information received by Superintendent Richardson D. White, who was informed that funds would be placed to the credit of the local school board in the county treasury as soon as the county board of supervisors had the bonds printed and ready for distribution.

## HOUSEGUESTS FOR WINTER

Mr. and Mrs. Herman Nelson of 641 East Harvard street have as their house guests for the winter Mrs. Nelson's sister, Mrs. C. H. Hatterscheid and three sons from Glendive, Montana, who arrived in Glendale, Friday morning, and Mr. Nelson's sister, Miss Minna Nelson from Critt, Ia.

## REV. HOWARD GAGE ISSUED CALL TO TROPICO CHURCH

**Dr. Blue Preaches Sermon  
Yesterday on "California  
and Christianity"**

The congregation of the Tropico Presbyterian church yesterday morning decided to call to the pulpit "for a stated supply," Rev. Howard Gage, pastor of the Placenta Presbyterian church.

Dr. Harry St. Clair, 1250 South Maryland avenue, and S. E. Brown, 1239 South Maryland avenue, were chosen to represent the board of elders and the congregation at the presbytery meeting to be held in the Vermont Avenue Presbyterian church of Los Angeles tomorrow at which this "call" will be discussed.

Following the resignation of Rev. O. P. Rider in October, Rev. G. J. Blue of Pasadena has been supplying the pulpit temporarily.

"California and Christianity" was the subject of Dr. Blue's sermon yesterday morning to a record attendance. He took as his text: "Except the Lord build the house, they labor in vain that build it; except the Lord keep the city, the watchman waketh but in vain."

**All Like to Build**  
"Everybody likes to build," declared Dr. Blue. "Give him a box of blocks and the baby is a builder. The youth is not so destructive as constructive if he has the chance. The creation instinct rules man. Nature was given him to discover and conquer and he is doing his best to perform his task. Man likes to build with things; he likes to build with ideas."

"John Steven McGroarty calls the Missions, the railway across the Sierras, the reclamation of the desert, the rebuilding of San Francisco and the Owens River aqueduct 'the five miracles of California.' But a greater miracle of building is 'California, the commonwealth, with its people, its position, its problems.' We, who live here, are builders of (Continued on Page 3)

## Credit Association Has Luncheon and Hears First Report

The Glendale Merchants' Credit association members dined this noon at the Chamber of Commerce banquet hall and heard a report from Secretary Frank H. Pilling on the first month's activities. An automatic roll call in which each member presented himself followed C. E. Neale's calling the meeting to order.

Mr. Pilling stated that 4000 names of Glendale buyers were on his books and that 150 local calls and 50 from outside of this city had been answered during December, the organization month. He urged all members to remember the telephone number, Glendale 2272, when anyone seeks credit.

Talks by various members giving methods for increasing the roll by 100 per cent concluded the session into which many business problems faced by local trade were discussed.

## Harry L. Howe Here for Visit With Friends

Harry L. Howe, former vice-principal of the local high school and resident of this city for many years, spent the past week-end in Glendale with friends and relatives, having come up from his home in Coachella last Wednesday. Mr. Howe, who owns a large ranch in the southern section of the famous Coachella valley, is principal of the Coachella Union High school.

## Mrs. Emma J. Reid Tuesday Club Speaker

At the regular meeting of the Tuesday Afternoon club, which will be held tomorrow afternoon at Masonic Temple, the speaker will be Mrs. Emma J. Reid, who will lecture on "Solar Magnetism." Mrs. June G. MacNee, vice-president of the Board of Education, says "The lectures given by Mrs. Reid are of practical value, and to attend usually means an aroused interest in the great planetary forces which affect our daily activities."

## SAYS VOICE SOUNDED LIKE BREAKING GLASS; POLICE INVESTIGATING

"I wanted to sing, but these bottles sounded like my voice when they broke."

That was the unusual sign found on the front porch of Mrs. Diana M. Seal's home at 320 1/2 West Cypress street this morning. All around were broken milk bottles, evidently harvested from neighboring doorsteps by some person mentally unbalanced, the police believe.

Mrs. Seal reports other disturbances which are being investigated.

## HOWARD EHMKE, GLENDALE YOUTH, MAY BE TRADED TO N. Y. YANKEES

Former Local High School Student Makes Good in  
Big Time Company; Basketball Opens Friday

By HOWARD M'GILLIS, Sport Editor The Evening News

Local baseball followers are more or less interested in the reported proposed deal in the American league whereby Howard Ehmke, first string pitcher for Detroit for the past four years, is to be traded to the New York Yankees. Ehmke, who has made good in the majors from the start, is a former resident of this city and student at the local high school, where he obtained most of his preliminary training.

While playing for Glendale high in 1914 under his brother, Frank Ehmke, at that time coach of athletics at the local institution, the present Detroit star attracted the attention of numerous minor league scouts and was signed by Cap Dillon of the Los Angeles Pacific Coast league. It was then that the "phenomenal Glendale youngster," as he was described by critics all over the country, started the baseball world by winning nine consecutive games in the Coast league without a single reversal. Never before had a young rookie fresh from the prep schools broken into a class A minor league with such an impressive record. Nine straight was at that time within three games of a Coast league record and was easily the record for that season.

During the next year, after receiving a number of offers from several major league clubs, he decided to cast his lot with the "more promising" Federal league, signing a contract with the St. Louis club. When the so-called outlaw league "went broke" the following season Ehmke, along with a number of promising youngsters, was relegated to the minors. He then returned to the Los Angeles club under Frank Chance, where he played out the season before being traded to Detroit. Since then he has continually been a member of the Tigers.

The proposed trade, which would mean the exchange of Ehmke to the Yankees for Johnny Mitchell, former stellar shortstop of the Vernon, Coast league team, would be advantageous to both players involved. Ehmke, who did not go so well dur-

ing part of last season, would profit by a trade to the heavy drawing New York club, while Mitchell, who has been a bench warmer since joining the hard hitting Catholics, will welcome a chance to become a regular with Ty Cobb's Tigers.

With the Central basketball league opening next Friday Coach Butterfield of the local casaba experts is rapidly rounding his players into shape for the season. Extensive practice has been the program since the Christmas holidays, the "basketballers" declaring that a few days' more training this week will put them in the well known "pink."

Glendale's initial contest will be with Menloville, winners of this year's grid laurels in the circuit. The strength of the Green and White is a matter of conjecture, although with several members of last year's quintet appearing on the squad it's a cinch that the locals will have to step pretty lively to nose them out.

Butterfield's probable lineup for Friday's game will be as follows: Willard Goertz and Victor Colburn, forwards; Wilfred Cline and Neil Melver, guards; Lee Worthman, center. Colburn, Goertz and Cline are veterans from last year's team, while Melver was a member of the 1921 lightweight squad. Worthman is a newcomer to Glendale high, this being his first year in local athletics.

The 1922 gridiron prospects for Stanford university took a decided leap last week when several of Southern California's foremost footballers in recent years matriculated in the Palo Alto institution of learning, thereby making them eligible to play on next season's varsity squad. Fred Solomon, "Chuck" Johnston and George Honck, former stars on the L. A. Poly eleven, and the famous "Long Beach Lawsons," Dick and Jim, comprise the group, of which three players are likely to make the 1922 crimson grid machine. All of them were stars of the first magnitude in Southern prep ranks and figure to make good at college.

## The WORLD OVER By FRANKLIN B. MORSE PACIFIC SPORTS SERVICE

Of the outdoor competitive land sports, football and golf are the two games which seem to be least affected by rainy weather. Football is played without consideration for the weather conditions. While there is no question that it detracts from the spectacular value of the game, gridiron contests are played in veritable downpours, and one seldom hears of a game postponed by reason of the elements.

It is getting to be much the same with golf. Recently in San Francisco, Jack Hutchinson and Jim Barnes played in a foursome against a couple of local professionals. There was a rain beating down most of the time while a forty-mile gale prevented the majority of the gallery from making use of the umbrellas they brought along with them.

While these conditions prevented anything like perfect play, your dyed in the wool golf fan probably got just as much fun watching the men go through their paces as they would have done on a good day. It was interesting to the student of golf to see what the man could do playing against the greatest of hazards, the wind.

Baseball and tennis, also polo, are three games which are unable to stand up under a bombardment of rain. The footing becomes too precarious. In the case of polo it is a danger not only to limb, but the life of the players in the event of a horse falling. It is costly in tennis for the reason that gut tennis rackets are ruined. Also the wetting of the gut

loosens the stringing and destroys the value of the racquet for the making of shots.

In the case of football one frequently hears it said that in the event of rain, this or that team will be the most affected by the conditions. While there is perhaps some reason for this sort of comment in extreme cases, yet, as a rule, it is mere bosh. What detracts from the playing ability of one team, generally speaking, is going to have precisely the same effect on the other. Precarious footing makes the going just as difficult for one man as another. A slippery ball has to be handled by all the parties concerned, and it is no less slippery for one than another.

The last game played on the Polo grounds in New York between the teams of the Army and Navy was a good example of how a wet and slippery field can ruin a good game. Under good conditions, this contest, which the writer witnessed, would have been one of the greatest contests ever staged. Both teams were supplied with brilliant running backs, and in many instances, what appeared like an open field, went for naught for the reason that the runner would lose his footing and get smothered by the opposing tacklers. It was not long before the 22 players took on the aspect of animated mudballs, and there wasn't the remotest chance of distinguishing who was who. When a substitute was put into the game he stood out in his clean, bright uniform. Like some sparkling gem. Gradually he would become submerged and within ten minutes would be lost sight of.

## SPORTS CHATTER By BILL UNMACK PACIFIC SPORTS SERVICE

The fact that young Jake Schaefer took the billiard championship away from Willie Hoppe after he had held the title for a matter of sixteen years, already has gained its effect in stimulating interest in the game. The public had come to take a win by Hoppe as inevitable. The result never was in doubt, what interest there was being centered by how many points, over and above his competitor, Hoppe would win. The return match between Schaefer and Hoppe will create an interest which was entirely missed in the first affair.

The two St. Paul Mikes, Gibbons and O'Dowd, while they put up a rattling fight at their recent last meeting, seem to have impressed the critics of the fact that they have slowed up. This is the first indication of the creeping years, and the chances are that in every match hereafter both Mikes will show just a little slower than the time before. This is the inexorable law of nature fulfilled. However, as long as they can pull down \$8,000 each per fight, they should worry.

The onward march of the grand old game of golf continues. On Mon-

day, December 26, Bakersfield's, California, new organization, the Old River Golf club, was formally opened. To start with, the club will use a nine hole course. William (Scotty) Hamilton, formerly professional with the California Golf club will be in charge. There are many good golfers in that section of the country and the new club starts under auspicious circumstances. With success assured, it should have no trouble in enlarging its links to the full eighteen holes, as there is plenty of good golfing terrain in the vicinity of Bakersfield.

## Correct His Vision

Every time we see a school boy straining his eyes at his work, we wonder if his teachers and parents realize under what a handicap he labors.

If you are responsible for a child, it is your duty to see that his eyes are in proper condition.

If there is any doubt, bring him in to us and we'll see that they are properly tested and fitted with glasses.

Feel free to call on us for any minor adjustment of your glasses. We'll be glad to serve you.

## Dinner and Social Given Husbands of Chapier's Members

The members of Chapter C. J. P. E. O. gave a B. I. L. party for their husbands Saturday night at the home of Mr. and Mrs. Vernon Putnam, 208 West Elk avenue, which proved to be one of the most enjoyable events in the history of that chapter. The brilliantly lighted parlors, with beautiful decorations of yellow flowers, were soon filled with a merry party of members and their guests. A very delightful dinner was served at 6:30 o'clock. The color scheme of yellow was further carried out in the table decorations of marigolds. After dinner the men were banished to the library, while the parlors were prepared for the B. I. L. initiation. To the strains of "Three Blind Mice," played by Mrs. H. V. Brown, Mrs. Roy Kent led the men into the presence of the members of the chapter, where they were fully initiated into the order of B. I. L. O's. "Brothers-in-Law" to the P. E. O's. Their badges were large tin stars on which the letters B. I. L. were hand-painted with black stove-pollish. After the initiation the men were called upon for speeches, and each responded with a few more or less appropriate remarks. The remainder of the evening was spent in singing, games and various stunts. Guests present, besides the members' husbands, included Mrs. Berry, Mrs. C. D. Cady, Miss Grace Crampton and Miss Agnes Brown.

## Homes Soon Found for Two Children of Ex-Service Man

Mr. and Mrs. Alfred Souza, who sent out a request last week for "some kind hearted persons" to take care of their two little girls for an indefinite period, have announced that their request has been granted, the volunteers being Mrs. Joshua Nichols of 539 North Louise street and H. Balestier of 120 South Maryland avenue. Mr. Souza, who is a veteran of the late war, is an inmate at the Thorpyroft hospital, where his wife is employed. They were unable to take proper care of the little girls, hence the request. Although Mr. Balestier, who was given the custody of the smaller of the two girls, is not yet a resident of Glendale, he expects to locate here in the immediate future. He is associated with H. Du Bois in the Glendale De Luxe Auto Top company on South Maryland avenue.

## REV. HOWARD GAGE ISSUED CALL TO TROPICO CHURCH

Dr. Blue Preaches Sermon Yesterday on 'California and Christianity'

(Continued from page 1)  
a state with its hearts and its homes, its ranches and its cities.  
"But how do we build? That is the question. The eye of the Divine Master is upon us and we build in vain unless we please Him."  
**The Higher Law**  
"During the debate about the admission of California into the Union in the Senate on March 11, 1850, William H. Seward used the phrase, which has since become historic, 'The Higher Law, and defined it as the law which governs all law. We are not building right unless our citizens from the highest in power, wealth and influence down to the very humblest soul among our millions swears allegiance to 'the higher law,' and recognize the truth of the scripture that, except the Lord build and keep, we build and watch in vain."  
"When God's best, nature's best and man's best, an all powerful trinity, are united, we can make a commonwealth worth while. God's best is here; nature's best is here; but man is not at his best yet. Man is not master of himself. Take the master's degree, the degree of self mastery, then you can build not in vain; then you can win California for Christ."

## Relief in Near East Told by Rev. Mottern

"What Is Being Done by Christianity to Relieve Suffering in the Near East" was the subject of an illustrated lecture last night by Rev. C. W. Mottern of 211 North Adams street in the Sunday school room of the Tropico Presbyterian church. The room was packed with an earnest audience.  
"Utilizing Opportunities" was the topic of the Christian Endeavor meeting at which a vicrola was used for the first time to interpret hymns during the services which were led by the Watch Committee, Miss Dorothy Thompson, Miss Gertrude Ashton, Miss Norma Wallace and Harry Richardson.

REV. COLE TALKS ON 'ENTHUSIASM' TOPIC  
'CHURCH SLEEPERS'  
SUNDAY MORNING  
OF SUNDAY'S TALK  
BY REV. EDMONDS

Sermon Woven About Betrayal of Christ; Most Ominous Religious Sign Told

Now Is Time for Men to Say Where They Stand, Declares Minister

"Church Sleepers" was the topic of Rev. C. A. Cole yesterday morning at the Central Christian church.

The sermon was woven around the betrayal of Christ in the Garden of Gethsemane, when Judas "cometh unto the disciples and findeth them sleeping."

"There are two pictures of this incident that should always be hung together," declared Rev. Cole. "One I would call treachery, the other lethargy. The world detests a traitor and refuses to give him quarter. But do you and I pity Peter and his two companions? Are we prompted to excuse them on the ground of physical exhaustion, not willful and, therefore, not wicked?"

"Jesus Himself was lenient and suggests such an explanation—'The spirit was willing, but the flesh is weak.' But He was plainly surprised and dealt a rebuke which could not be forgotten."

## Heart More Than Match

"An anxious mother is exhausted with her long vigil but the suspense and anxiety could never let her eyelids close for a minute. 'Nature makes imperious demands, but her heart is more than a match for nature.'"

"The sentinel out yonder is cold and weary with his long watch, but he knows it would be crime to yield to physical demands."

"The engineer in the cab is numb with cold and faint with the strain, but he would as soon think of committing suicide as to go to sleep at his post."

"And yet Peter, when Jesus needed him most in all His tempestuous life and after He had expressly bidden him tarry and watch, allowed the demands of nature to have precedence over the charge of his Master."

"Indifference, self-ease, personal comfort, surrender to the physical are always greater foes than outward attack."

## Threatening Christianity

"One of the greatest foes Christianity could meet is at the gate threatening betrayal at the hands of coming generations."

Rev. Cole commented upon the fact that the Bible had been expelled from the public schools, religious training had been largely abandoned in American homes, children exempted from church attendance and religious training condensed to half an hour a week at the hands of Sunday school teacher. He declared that ministers were preaching ethics, sociology, with a minimum of theology. He admitted that extreme criticism was undermining faith in inspiration.

"All this means a threatened attack upon Christ and His kingdom more crucial than the ancient betrayal of Judas," resumed Rev. Cole. "Is it not time for all who love the Master's honor and desire the increase of His church, to be alert and vigilant?"

"Instead, what do we find? Great hosts of the Lord's followers, who, instead of putting themselves against this attack by standing before some Sunday school class or about their own hearthstones, are taking their ease or studying their own comforts."

## Mistaking Its Motives

"Behold the onslaught of the adversary against the church so inflaming the masses that the laboring man, the poor, the unemployed and the criminal classes are all arrayed against, mistaking its motives and resenting its appeals and even spurning its approaches. If there ever was a time when our Lord's followers needed to be awake and on their feet it is now. But stupor has fallen on many. Many, unmindful of these conditions, are promoting class distinctions within the church, actually turning a cold shoulder to those socially inferior. Large numbers are doing their charity through non-church organizations. Luxury and cold commercialism are leading the world to say that the church is a friend and champion of sordid wealth."

"The most ominous religious sign of the times is the drift away from the church. In some sections and with certain people it is a veritable stampede. Unless it can be overcome, the church has its greatest peril ahead of it."

## Paris Chauffeurs and Waiters Rob Americans

PARIS—Overcharging of Americans by taxicab drivers, waiters, etc., has been brought to the attention of M. Leveille, Prefect of Police, who has promised to take drastic action to curb the practice, which has incurred the displeasure of American transients and resulted in unfavorable opinions of France among tourists who have been mulcted by these profiteers.

The matter was brought to a head when J. H. Nivart-Chatelain, an American newspaperman of French birth, refused to pay an extortionate taxicab fare and had the chauffeur arrested. He brought his complaint direct to the prefect and the chauffeur was given a stiff jail sentence. Nivart-Chatelain then decided to publish a guide book for American tourists here, which will effectually curb attempts at extortion. American Ambassador Herrick and the French government have approved the plan, which will be co-operating with the author of the guide book.

There's no ill-luck in turning back if you are on the wrong road.

Rev. W. E. Edmonds at the Presbyterian church preached Sunday morning to a very large congregation concerning "Enthusiasm," from the words, "I know thy works, that thou art neither cold nor hot: I would that thou wert cold or hot. Lo thou because thou art lukewarm, and neither cold nor hot, I will spue thee out of my mouth."

"It is strange that people like enthusiasm everywhere but in the church," declared Rev. Edmonds. "Folks go all lengths of energy and interest for every sort of object and think it all right, except in the subject. It is time in this day that we bring in truth with all push and earnestness. When one brings such a message as the gospel of Jesus Christ he should have enthusiasm. They tell us, 'Just keep right in the middle of the road, or you will offend!'"

"There are things that have no two sides; they are right or wrong, nothing else. These are days when men are required to state where they stand."

## Self Sacrificing Love

"In human affairs there has been no nobler passion than self-sacrificing love. This has lain at the bottom of all glorious patriotisms. Should Christian zeal be behind? Think of the Christian king who lived and died and redeemed his subjects! Go back to Moriah, to Abraham there with Isaac, the man who was willing to go the limit in devotion to God. And Moses, was he a weakling? Rather a mighty man of valor. And all those other heroes; enthusiasm was in them, holy and righteous. Is there anything like that in your life?"

"Enthusiasm inspires amid severest trials. Not noise; it does not always have a voice; but it is in faith, trust. And enthusiasm is the antidote to selfishness; when we have it, it is remarkable how little we think of taking things easy. Who wants to take things easy in such a day as this?"

"This enthusiasm manifests itself in a personal devotion to a personal Christ. God is worthy of our devotion. See Mary with her precious spikenard to pour out on Jesus' feet; one said, 'It is a shame to waste that.' But nothing done in the name of Christ is wasted. It is the condition of heart makes the enthusiasm. How much do you love Him? That is the measure. You can't put your devotion in a box and nail it up; you must use it."

## Missionary Power

"Enthusiasm is a source of missionary power. A business man who had made a world tour met a young man and told him the country to which he was desiring to go as a missionary was a bad place to live; no man could live long there except the native born. 'But say, are there men there?' 'Yes, millions.' 'Then there is where I shall go!'"

Heroic Dr. Duff pleading for men to go to the field, fell in a faint, and they carried him out. Reviving, he begged to be carried back to go on. 'But you will die.' 'Carry me back! I'll die if I don't go back! O, for an enthusiasm that will lead us into a path for our King,—make us willing to burn out for God!'"

America Is Helping  
China Reforest Hills

SHANGHAI, China — America is helping China reforest her barren hills.

After centuries of neglect China is endeavoring to charter of a million dollars in forestry work, planting over a thousand nurseries, reforesting about one hundred thousand acres of useless land and producing over one hundred million young trees.

America's help in this splendid Chinese development is through educational channels rather than by donations of money.

There are at work Chinese forestry graduates of Yale, Harvard, Cornell, Syracuse and Michigan. Yale leads the number by at least six men. Ngan Han, a Michigan graduate, has for seven years been identified in the most important forestry work of the Central government. Lin, a Yale graduate, last year organized the Shantung Forestry service and is director-in-chief of the work.

Soong Ding-moo, a graduate of the School of Forestry of the Philippine Islands, has developed the First Provincial Forestry Station of Kiangsu, located just outside the walls of Nanking, the old southern capital of China.

More than fifty Chinese students are enrolled in the forestry course of the College of Agriculture and Forestry of the University of Nanking. The teachers are American-trained Chinese. Through the university tons of trees are distributed throughout China each year, while the university nursery contains about a million young trees, which are sold yearly at cost. The school garden of America has been transplanted to China. The idea of sending bulletins and sets of seeds throughout the country has come from America.

## CHEMISTS DETECT POISON

The usefulness of chemistry in poisoning cases is well known. It enables us to determine the nature of the poison used, the way in which it was administered and the amount given. Some poisons are so persistent that their presence can be detected even if the chemical examination is not made for weeks, or perhaps months, after death has occurred.

Mystery of Light on  
Mountain Is Solved

ASHVILLE, N. C.—The mysterious light on Brown Mountain, in Burke county, which has puzzled many and varied theories as to its origin, is a mystery no longer, if an explanation contained in the current publication of the American Meteorological Society Bulletin has the correct solution.

"Andean lightning" is the name of this phenomenon, according to the bulletin. "Andean lightning," says the report, "is the name given to a very striking luminous discharge of electricity seen over the crest of the Andes, in Chile, in a region where ordinarily thunderstorms are almost unknown. The mountains appear to act as gigantic lightning rods, between which and the clouds silent discharges take place on a vast scale. Because more frequently seen in the Andes than elsewhere the term 'Andean lightning' has been adopted."

"However, the same phenomenon has been observed in the Swiss Alps and the mountains of North Carolina. Detailed accounts of its appearance in the region of Brown Mountain, seventeen miles from Blowing Rock, in the summers of 1917 and 1918, were given. According to Dr. Walter Knoche, for a number of years Director of the Weather Bureau of Chile, these great silent brush discharges of electricity extend from the crest of the Cordilleras far out to sea. They almost always appear in a clear sky upon the approach of nightfall. As regards seasons, the phenomenon begins in the late spring and is last seen in the fall. The frequency of discharge, says Dr. Knoche, seems in general to decrease or increase with distance from the Equator."

"In the discussion the occurrence of such mountain brush discharges in the White Mountains was mentioned."

Says Bad Teeth Will  
Often Induce Insanity

COLUMBUS, Ohio—"Bad teeth produce insanity," declared Dr. Otto King, Chicago, general secretary of the National Dental association, during an address here.

"Bad teeth are a contributing cause to hundreds of cases of youthful incorrigibility, failure to keep up school work and, frequently, crime."

"Heart disease is largely traceable to mouth infection. Chronic bad conditions of the teeth invite cancer. 'Crime is a mental disease, due to physical defects, and one of the most frequent defects is bad teeth, or in sanitary oral conditions. The working capacity of a man is in direct relation to the condition of his mouth.'"

## INCOME COLLECTOR HERE

Rex Ragan, a deputy income tax collector, is at the city hall this week checking over 1920 returns prior to starting the work of the new year.

He has desk room in the city clerk's office. The new forms for 1921 returns will not be ready until about February 1, he states. There is a

new clause in the law which should get particular attention of many local merchants. If gross profits amount to \$5000 or more returns must be made whether a tax is paid or not.

There are twelve Buddhist temples, with thirty-four priests and 5,639 members, in the United States.

Revised census figures place the population of the country, as of January 1, 1920, at 105,710,020, comprising 94,820,915 whites, 10,463,131 negroes, 244,437 Indians, 110,010 Japanese, and 61,639 Chinese.

We never eat a dish of store ice cream without thinking what a poor imitation it is of the kind made of real cream, on the farm.

# Stork Has Busy Year In City, Records Show

**Large Number of Babies Arriving During 1921 Help to Make This Fastest Growing City**

BETTER babies in Glendale! The year 1921 was not entirely devoted to mere building enterprises—not at all! For, during the twelve months just passed, the stork was called upon to make numerous trips to this city. Examination of birth records on file at the city hall shows that Young Glendale was a steady visitor throughout the year. Master Glendale and Miss Glendale helped to make this "the fastest growing city in the country." Among the infant arrivals during the past year are the following, the name and address of the parents being given, then the name of the "youngster," and finally the date of the arrival:

**FEW FOLKS HAVE GRAY HAIR NOW**

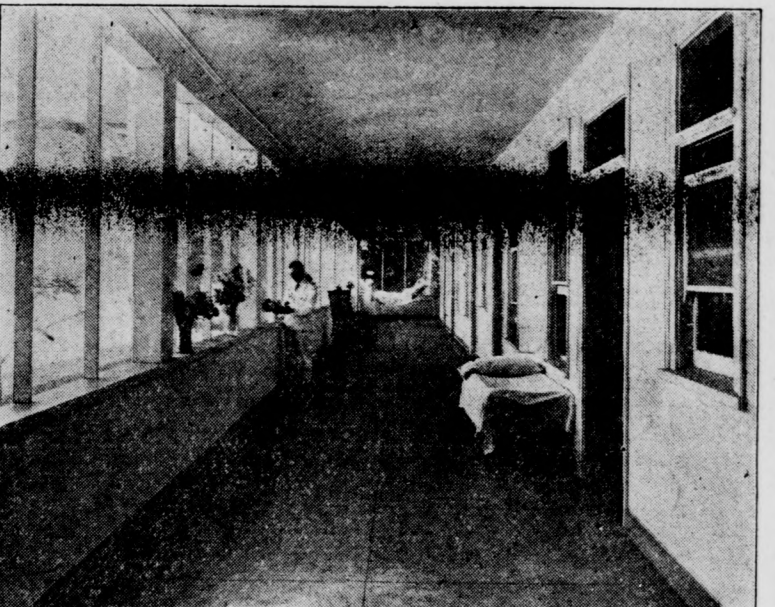

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and it gives it an appearance of abundance. ## TOTAL OF \$22,000 IS PLEDGED FOR CHURCH'S WORK

Financial Campaign of First Methodists Big Success; Dr. Geissinger Praised

(Continued from Page 1)  
It records a new order, wherein man through God is to have dominion. "He is able" rings through it all. We need that truth today. God is able to save unto the uttermost all they that come to him.

Needs of Social Gospel  
"The apostle Paul was a wonderful optimist! Said he: 'I can do all things through Christ.'"

"All signs conspire today to better conditions. Everywhere there are tokens of God's power. Christianity has increased more since 1800 than in the eighteen centuries preceding. Thirty-six million bibles are printed and sent out to bless mankind every twelve months.

"We are awakening to the needs of a social gospel and to a wider application of its benefits. It is the business of every minister to see that the gospel is applied to the bettering of all conditions of human life. Service and not self should be the watchword for all.

"While it is true that there is much ignorance and wickedness in the world, it is also true that there are men and women by the hundred thousands, and, yes, millions—who are striving to lift this race up to God and righteousness. The old religions of the world are dying but Christianity is marching on victoriously."

### Favors Selection of Immigrants at Home

WASHINGTON — Secretary of Labor Davis favors an act of Congress whereby the status of the immigrant to the United States can be determined before he sails for this country.

The tragedies of families separated and hopes of a new-found freedom disappointed are daily cast up as flotsam and jetsam in the weltering tide of humanity that flows through the immigration station.

"For the sake of humanity the standing of the immigrant ought to be determined before he leaves his own country," said Secretary Davis. "I sincerely hope that some system for selection on the other side may be worked out and a law for putting it in effect placed upon the statute books at an early date."

The work of the immigration officials has been complicated by the new immigration law which provides that not more than a certain quota of immigrants from any one country shall be admitted within the year. Some thirteen countries, or groups of countries, already have their quotas for the year exhausted—but still barred immigrants continue to come.

### New Year's Party Is Given W. B. M. Boys

The W. B. M. boys had a New Year's party at the Labadie studio, 101 North Cedar street, last Saturday night, and the evening was spent in games and music winding up with a masquerade parade marching by and saluting Mrs. Evelyn M. S. Labadie. All make-ups were exceedingly unique.

The decorations consisted of profuse foliage and a Christmas tree with numerous old-fashioned candles. Each boy brought a gift, which was numbered and put on the tree and then the boys drew for the numbers, each boy receiving two gifts.

Beginning with next Saturday the W. B. M. class will again meet regularly in their club rooms in the Labadie Studio of Dramatic Expression.

### ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Menthosulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Menthosulphur from any good druggist and use it like a cold cream.—Advertisement.

## 'Looking for Jesus' Subject of Sermon by Dr. H. Funk

"Looking for Jesus" was the topic of Dr. H. C. Funk's sermon yesterday morning at the Lutheran church.

"I plead with you not to neglect the catechization and confirmation of your families and your friends," declared Dr. Funk. "Use the same good God-given common sense that you manifest in sending your youth to the public schools. Bring them up in the nurture and admonition of the Lord. Do your part faithfully and well. Give them the instruction, and, if they do not confirm or approve of it, their blood will not be upon your hands. But they will bless you in after years for the tender care taken in their eternal welfare."

"And how like God's holy plan is this system of ours. Give your child to God in holy baptism. Teach it 'line upon line,' and it will be glad to approve what you did in the tender, formative, period of its life, by your own personal confession of Christ in Confirmation. To catechize is to teach as Moses taught the children of Israel; to teach as Jesus did Nicodemus and the women at the well; yea, as He did the apostles for three years. Go ye, therefore, and teach all nations."

## White Wife of This Chinese Is Contented

SAN FRANCISCO—Mrs. Wong Suk Yue, sister of Mr. Howard Gould, whose marriage some years ago was something of a national sensation, sits in her Chinese tearoom and curio shop in the heart of Chinatown and smiles, but has no answer to inquiries as to the success or failure of American-Asiatic matrimonial alliances.

"Do you consider your own matrimonial experience was successful?" she was asked.

"That depends on the point of view, whether you look at marriage from the spiritual, intellectual or physical point of view," she answered enigmatically. And that was as far as she was willing to enter into the subject.

Rangy about her on the shelves and in the showrooms of her shop is a wealth of Chinese bric-a-brac and objects of Celestial art and craftsmanship. The atmosphere is as Oriental as in any of the other Chinese shops along Grant avenue. The Oriental atmosphere and the bric-a-brac are all that remain of her famous Oriental romance—that and the indelible impression on her own country.

Her Chinese husband is 5,000 miles away in China. He prefers his own country. Mrs. Wong prefers hers. He intends to stay where he is, and she intends to stay here.

She denies that there is any legal separation, but says she has no intention of rejoining her husband and that he has no intention of rejoining her.

But Mrs. Wong is not cast down. She is obviously ready to meet the world alone as she was when she braved the violation of custom, tradition and race prejudice and the antagonism of her own people, forsook the social position she could have maintained as the sister of Mrs. Gould, one of the wealthiest of American women, and cast her lot with her Chinese husband, Mrs. Wong, then Miss Clemmons, had entered to the most exclusive social circles. Her prospective husband was a lowly dweller in San Francisco's Chinatown. Her marriage met with violent opposition from her family, but she and Mrs. Gould eventually were reconciled.

Mrs. Wong lives simply and quietly in the rear of her tearoom and is content with life as a white member of Gould's Chinese household. Though her Chinese husband is no longer with her she remains among his countrymen here and is well known and respected by them.

## Wants More Play, Less Work for Children

CHICAGO—"Ring around the rosie" is more necessary than "two times four equals eight," in the opinion of Peter A. Mortenson, superintendent of schools of Chicago.

Play, according to Superintendent Mortenson, is more necessary to the education of the child than study.

"We plan to double the number of parks under our control next year," he said. "Most of the children who use these grounds are those in the greatest need of exercise."

## PROHIBITION MAKES TERRIFIC BATTLE IN PAST YEAR

Facts and Figures Show That Government Forces Active Throughout Country

Dispatches by The International News Service to The Glendale Evening News show that the ghost of John Barleycorn enters the new year wavering under a series of staggering blows struck by prohibition agents during 1921. The facts and figures are provided by the internal revenue reports just made available.

The government forces confiscated 6,000,000 gallons of alcoholic beverages during 1921. The reports showed, while 46,000 persons were arrested for alleged violations. The confiscations, it was pointed out, were thirty times as large as in the preceding year.

The dry agents swept into their net property and liquors valued at \$12,000,000 in the last twelve months.

Delaware Best Behaved  
The most flagrant violations, the reports showed, occurred in New York, Ohio, South Carolina, North Carolina, Georgia and Florida.

Delaware with but fifty-three gallons of liquor seized and fourteen persons arrested, was the best behaved, while long-dry Kansas was a close second. Nevada and Vermont also showed marked tendencies for peaceful enforcement of the law.

Bootleggers plying in beer fared the worst at the hands of dry agents. The government's beer confiscations totaled 1,000,000 gallons with 469,000 gallons of wine and 440,000 gallons of distilled spirits also seized.

The most valuable property was seized in Florida where \$2,210,000 worth of "booze" and paraphernalia (including stills), fell into the government's hands. New York ran a close second with \$1,450,000 worth of property seized.

Ohio led in the number of citizens arrested. Approximately 3,800 Ohioans were arrested during the year, while 3,500 were arrested in New York. Illinois ranked third in arrests with 2,500, with Massachusetts fourth with 2,200 and Texas next with 2,000. California and Missouri followed each with about 1,200 arrests.

New York Is Wettest  
The most beer was seized in Georgia where agents confiscated 3,450,000 gallons. North Carolina was second and Virginia third.

New York was the "wettest" state in distilled liquors. Dry agents there seized approximately 69,700 gallons of distilled spirits during the year. California was second in this respect with 65,000 gallons seized. California, however, led all other states in the amount of wine and cider which fell into federal hands. The confiscations totaled 100,000 gallons. Virginia with 60,000 gallons seized was second and Minnesota third with 40,000 gallons confiscated.

In the number of distilleries and stills seized, North Carolina was the worst violator. She led in both violations by big majorities, with Virginia second in both instances.

## Combine Art, Business, Is Proposed by British

LONDON—Can beauty and business be combined? A number of Britons think so, and they feel that all that is needed is to educate the children's artistic tastes.

The subject has come to the attention of the Federation of British Industries. After an investigation the committee has made a report to the British Institute of Industrial Art, stating that they are convinced no substantial improvement in the artistic quality of British products is possible until the taste of the buyer has been improved.

A definite demand for well designed goods in many lines exists, but it is considered too limited at present to enable them to be produced cheaply on a large scale.

The committee, therefore, suggests the desirability of examining how far it may be possible to influence the curriculum of elementary and secondary schools, public schools and universities so that pupils may be trained to distinguish the artistically good from bad in objects of everyday contact. The idea of the committee is that the natural faculties of the ordinary citizen should be so trained that he will "spontaneously appreciate what is beautiful and reject what is ugly."

"So far as can be ascertained, little is being done on these lines in this or any other country at the present time, and it is suggested that the energies of the British Institute of Industrial Art could not be more usefully directed than in undertaking some research and propaganda on the subject."

## DEPRESSION HITS HAWAII

HONOLULU, T. H.—Announcing substantial cuts in the salaries of every plantation employee from president to office boy, the Hawaiian Sugar Planters' association has given the first official recognition of the fact that the nation-wide depression has at last hit Hawaii.

The salary cut, which became effective on December 1, followed closely the announcement by the association of decreases in field labor wages to base pay of \$26 per working month of twenty-six days, effective on all plantations which are members of the association. Both wages and salaries on the plantations have been far above normal during the entire war period, sugar officials say, and now that "four-cent sugar" is a fact, pay schedules must conform.

## Dutchman Invents New Electric Burglar Trap

LONDON—The burglar is in for a tough time in the future, according to claims made for a Dutch invention now being tested by Scotland Yard officials.

The invention is a wireless burglar alarm, the apparatus of which is contained in a little box twelve inches long, four inches wide and three inches deep. Its magician's secret lies, it is said, in a new use for electricity.

A single wire attached loosely to a window frame, safe, or whatever object the householder or business man desires for special protection is sufficient.

When the article so protected is approached by the enterprising burglar the instrument will report by wireless to the nearest police station the number of the house and the

street where the robbery is taking place. In addition, where the house is lighted with electricity the lights will be switched on automatically in every room and alarm bells will be set ringing.

The apparatus is also a fire alarm, for if flame is shown near the object under its protection the bells ring and the lights go up just the same.

### Jackie Coogan in "My Boy"

William S. Hart in  
True Western Film  
at T. D. & L. Today

Never in recent years has a more masterful drama of the west been presented to the public than "White Oak," William S. Hart's newest Paramount picture, which closes a most successful engagement at the T. D. & L. theatre today.

It is virile, it is touching, the heart interest is intense, the desert scenes are like visions of the past to prove to us the trials and perils the pioneers had to contend with in their struggle to blaze the pathway for future civilization.

Mr. Hart is at his best in this photoplay, a picturesque, commanding figure, every inch a man—ster-

ling, true and honorable despite his calling—a gambler. And he proves that his name of Oak Miller, really stands for "White Oak," for he is white all the way through. This is another of William S. Hart's own conceptions. A story of a period which to him is an open book. It is a period he loves—the early days of the west, the days of the prairie schooner, the wagon trains, the long and perilous journeys across the deserts and mountains with hidden enemies lurking in ambush. It is a colorful story, with vivid action and contrasts that are startling in their conception. It is the age old tale of love and passion and the lust of men for wealth. It is the story of man's inhumanity to man and woman; of a strong man's battle and of a girl's true affection. It is a compelling, suspenseful, heart-throbbing picture and one that rings the note of truth at every turn.

## BUILDING PERMITS IN BURBANK AT \$1,073,278 MARK

Neighboring Town Is Making  
Good Record; News Notes  
of Glendale's Vicinity

Proof that Burbank is booming is shown in the total of building done there during the year 1921. According to Building Inspector H. C. Bond the figure is \$1,073,278. This is more than 20 per cent of the amount rolled up by Glendale and the new year holds much in the way of factories, etc. Sad, but true, several of the large industries boasted by Burbank lie partially in county territory and do not register on their building record.

### Not Coyotes, But Dogs

Visitors to the Monte Vista valley sometimes think they see wolves or coyotes which investigation prove to be two famous German police dogs belonging to Mrs. Clara Bentley who resides on Canyon Rim road. Mrs. Bentley also has two Chow Chow dogs imported from China, and a young Reese monkey brought recently from Japan, which is rapidly learning to lord it over the Chows.

### Large Pullet Farm

Albert Rackstraw, who has recently leased Valley Grove Farm at Lankershim, has converted his establishment into a strictly pullet farm, and is planning to turn out during the coming season about 20,000 pullets. Mr. Rackstraw is an experienced poultryman, having imported among other things an electric hoover which he is using in the brooding of the baby chicks.

### Selected Right Place

"Nothing like having things handy," said the ice cream truck driver who overturned his machine in front of the Night and Day garage in Tujunga early one morning last week. He had applied the brakes to stop at Hurley's by the Highway, but the wet pavement caused him to skid down the hill right into the hands of a wrecking crew.

### Picks Out Own Mail

The Burbank post office passes the letters received for foreigners out for examination by the individuals who are expecting the missives. They are placed in a box on a narrow desk and when a person comes in with an unpronounceable and unspellable name, he is referred to the box, where he is permitted to go through the bundle at his leisure. This is what might be called cafeteria style.

### In Lumber Company

B. F. Bolen, for eight years a resident of Glendale, but who for the past six months has lived in Tujunga, is now a stockholder in the Tujunga Lumber & Supply Co., Inc. Mr. Bolen bought Jerry Farris' interest in the business as well as additional stock.

## Jackie Coogan Picture Coming to T. D. & L.

As the stellar attraction for the week Ralph Allan announces "My Boy," featuring Jackie Coogan for presentation at the T. D. & L. Theatre, beginning Tuesday. Of the picture too much cannot be said, as it ranks among the best photodramas of the year. "My Boy" touches the heart from every angle. It is deep in sympathy, pathos, love and brilliant with comedy and the touches of exquisite humor. The story of the "Little Immigrant Man" (Jackie Coogan), who finds himself alone in all the world cannot but bring tears to one's eyes—then again the boyish pranks and ideal situations for comedy action bring out the chuckles and laughs—as a whole this picture "gets right into you," it is declared.

## Nimrod Gets Hunting License for Marriage

CHICAGO—Just as Judge H. Pomeroy Sterling, in marriage court, was about to tie the knot, William Taylor, forty-two, a nimrod, produced the license.

"Why, this is a hunting license!" exclaimed the Judge.

Virginia Ross, the bride-to-be, stalked out of court, big tears trickling down her cheeks.

Finally, after apologetic explanation, Taylor got her to return.

"It was this way," said Taylor to the Judge. "When I went into the clerk's office I saw two signs. One said 'Marriage Licenses' and the other 'Hunting Licenses.' I thought to myself, I've been hunting this woman for three years before she'd marry me—a hunting license is what I need."

## Berlin University Bans All Student Meetings

BERLIN—Alarmed by the spread of radical propaganda among the students, the authorities of the University of Berlin have formally forbidden the student group of the Communist party to meet on the university campus for the next twelve months.

This action, says Dr. Nernst, the rector of the university, was taken in order to maintain academic discipline, which was sorely threatened by the bawky youths.

## COMMENT THAT'S ALL

Build Better Bridges!  
Snow Provides a "Bracer"  
Fool With Which to Work  
Help Others Help You!

By Gil A. Cowan

GLENDALE is getting a black eye through no fault of its own. The bridge between this city and Hollywood (an annexed portion of Los Angeles), has been out since the Christmas flood and no ford, or repairs have been made which will permit passage at the very gate of Griffith park.

As a result, all traffic is being routed by the way of Los Feliz Road to Ivanhoe and across the Glendale boulevard bridge (another structure lying within the city of Los Angeles), which proves entirely inadequate for the traffic.

It took motorists more than two hours last evening to go two miles and no less than 1500 cars were forced into the worst traffic jam ever seen in southern California. The gasoline bill alone must have amounted to several hundred dollars in several hours' time that congestion reigned.

All of which makes apparent the necessity for the immediate repair of the washed-out structure and the building of a bridge for Glendale boulevard traffic that will have the capacity. At the same time the Pacific Electric trestle could be incorporated in the new and permanent viaduct.

Hundreds of tourists who had a hankering for snow visited Mt. Lowe yesterday and found enough to satisfy their desire for winter sport.

The Sierra Madre range is tipped with a spotted white mantle which is reflected in the chilly evenings when the open hearth at home has an inviting welcome.

Brisk mornings are a tonic for the builders and boosters of southern California who step out to their pursuits with the "pep" of a hardy New Englander.

Henry Ford doesn't know within five or ten millions of dollars exactly what his bank balance amounts to, but it is in the neighborhood of \$121,000,000.

It's an even bet that there are not five people in Glendale who do not know their bank balance within 15 cents. However, when anyone gets as wealthy as Mr. Ford, there is little necessity of knowing. He is safe in the satisfaction of knowing that he could capitalize his interests at more than a billion dollars.

Most striking thing about his copyrighted interview with Allen L. Benson of International News Service, is the statement: "Whatever we have in the bank means nothing to me except a tool with which to work."

"The tools with which to work" are often the subject of much discussion. It is a poor mechanic, the old saw says, who complains about his tools.

There are leagues, associations, clubs, etc., which are used as tools by petty politicians, public seers and others for better or for worse.

Yet, if there is any good in these organizations it is bound to come out! Look at the remarkable report of the Glendale Chamber of Commerce. Watch the San Fernando Boulevard Improvement Association make its mark. See the Glendale Avenue Improvement Association accomplish things.

Those are fine examples of the several civic bodies which are working for the betterment of Glendale. Such men of vision as James M. Rhoades, W. Griffin, Harry C. Levey and a score of others interested in these various organizations' success will see their efforts rewarded with the satisfaction of having "started something." Help them help yourself!

## Judge Sees Nymph's Perfect Shoulders; Awards Her Verdict

SAN FRANCISCO—One good look at a perfectly shaped and pink shouldered Miss Grace Naughton, comely blonde, by Justice A. T. Barnett and she won a judgment of \$10.40 against a beauty specialist, because his preparation to remove freckles had failed.

At the time Miss Naughton submitted her shoulders in exhibit to court she also submitted the freckles, still present, despite the fact she had applied the alleged freckle remover half a dozen times. One peek at these two vital plaintiff exhibits and Justice Barnett ordered the beauty specialist to pay the amount Miss Naughton claimed she had paid for the ointment on a "money back guarantee."

"The preparation took off the skin but left the freckles, Your Honor," the demure little miss told the court.

Miss Naughton, well known in aquatic circles, stated she got the freckles while swimming and could not wear party dresses because of them.

## Six Dead at Niagara Falls in Year 1921

NIAGARA FALLS—In a small red book kept in the office of the administration buildings of the state reservation are entered the tragedies of Niagara. The year of 1921 has brought more occasions for the use of this book than any other year since 1909. There are six known deaths, two suspects and two rescues entered in the red book since January 1, 1921. These statistics do not cover all the bodies found in the lower river; only those that may be connected in some way with a suspected suicide or accident above the falls are recorded.

## WHAT OTHERS THINK ABOUT PASADENA'S FLOAT DECISION

Next Year Portland, Maine,  
May Send Bowl of Petunias  
and Get First Prize

It is interesting to learn of others' opinions about the Glendale float in the Tournament of Roses pageant New Year's Day. The Tujunga Record, ably edited by Wallace M. Morgan, says in a first page editorial:

"Next year Tujunga should have a float in the Pasadena Rose Tournament. So long as our next door neighbor, Glendale, was taking first prize every year it was all very well for us to rest easy and watch the parade from the sidewalk, but when a rank outsider like Portland comes and captures first honors it is time for Tujunga to get busy. Next year Portland, Me., may send a bowlful of petunias, or Topeka, Kan., may hob up with a spray of hothouse sunflowers and the fame of southern California as the only place where the flowers bloom on New Year's day will be shot to shreds. The only way to stop a landslide is to lay something strong and heavy against it when the first preliminary pebbles begin to rattle down the hill.

### Go To It, Tujunga!

"So it is time for Tujunga to tighten up its belt, spit on its hands and get into the game."

The Burbank Pathfinder says in its news columns:

"The Glendale float at Pasadena was a jewel, and a true-to-life representation of the east and west, representing California's golden wealth and greenery and the cold and icy grip that old boreas has on the east. It won second prize in class A. Portland, Ore., won first prize in class A."

Little credit for Portland can be found in those comments, eh?

And Now Read This

Following is a communication regarding the Glendale float which was received this morning:

Editor Evening News—We are visitors in southern California from Greeley, Colo., tourists, who believe in law and justice. Therefore, we wish to voice a protest in Portland's float receiving first prize at the Rose Tournament in Pasadena.

We will admit that it was beautiful, as were many more, but when that is said all has been said for it. We were told that Glendale received second prize because she used carnations to represent snow instead of roses. Did Portland use roses, carnations or any other flower to represent her urns?

Glendale told a wonderful story, reaching clear across the great continent and told it so clearly that little children could understand, and told it in the most beautiful and poetic language Mother Nature could use.

The Glendale float was not a large bouquet of roses. Oh, no! But it was a master creation of art and ingenuity, long to remain in the minds of thousands of visitors from all over the continent. Yours,

MRS. P. J. KENNEDY,  
1131 East Elk Avenue.

## Harry Girard Wins Bet By His Voice and Hearty Applause

When Agnes Cain-Brown became ill yesterday afternoon and was unable to sing at the Glendale Theatre its Sunday evening concert, her husband, Harry Girard appeared in her place—and won a bet.

At the Shrine club meeting the other night he bet Mayor Spencer Robinson he could sing a certain song and win the plaudits of his fellow townspeople. This he did at the concert.

Manager W. A. Howe takes great pride in the musical treats he is able to offer and believes in providing a program for Glendale theatregoers that will save carfare to Los Angeles. In fact, people from Pasadena, Hollywood, Burbank and other nearby communities motor to Glendale shows.

## New Device Measures Love Power in Heart

NEW YORK—One of the innumerable uses to which the "telegraphophone," an invention announced by the society for electrical development, may be placed is that of preventing unhappy marriages.

The inventor himself, name not disclosed, believes that if it can be adjusted over the heart of the girl, her doubt-torn swain will be able to tell whether she is telling the truth or not. He has not invented a way of making the girl put this lie detector on.

The "telegraphophone" records the breathing and heart beats. It magnifies irregularities caused by emotions and is regarded by criminologists as a sure method of catching lying witnesses. The lover suggestion is put forward by the inventor merely as an example of what science could do if permitted.

"When John grows doubtful of the reality of Joan's love for him," he says in his dry, academic way, "he can satisfy by having her heart flutters measured."

If the girl puts up a struggle at a suggestion that she wear this harness during an evening of courtship John may be sure that he is going to get several hours of lies. In that case there is nothing to do but doubt everything she says. Thus will unhappy marriages be prevented.

Some people spend all their lives demonstrating that the fool killer is a myth.

## "Beating the Game," Tom Moore Picture, on Glendale Screen

Tom Moore is not only Tom of the golden smile in his new Goldwyn picture, "Beating the Game," which is being shown at the Glendale theatre today, but he is also Tom of the strong arm and Tom of the fraternity of crooks. In this powerful story by the famous American playwright, Charles Kenyon, the dramatic theme is supplied by a ruse perpetrated on a clumsy crook by a United States senator, whose hobby is criminology.

Mistaken by the crook (Tom Moore) for a master thief, the former obeys the latter's instruction to "go it straight" for a short time. Believing that this is part of

a plan to make a great haul, the thief complies with the request, only to discover that his honesty has won the heart of a wonderful girl and the respect of the community.

How the regenerated crook fights to continue his life, even at the risk of disclosing his past, are but a few of the climactic episodes that make "Beating the Game" an interesting, logical and splendid acted picture.

In addition there is a Pathe News reel, Topics of the Day and Chats, while the Sunshine comedy, "The Devilish Romeo," completes the program.
